

I'll be honest, I wasn't expecting this decision, Metricooler.

How many times have you seen a reel that you liked, and wanted to save it to your **phone?** Or, without having to take an extra step or losing the contetn, downloading a reel that you've already uploaded.

This has happened to me, and I have gone crazy looking for a page that would allow me to download it...

Until now... SURPRISE, and it's a good one!

It's official... I say officially, because a few months ago it was leaked that Instagram was working

Instagram activates reel downloads

on this feature, which will allow you to download reels that are public. As you can see in the tweet below, you will be able to download a reel, as long as the

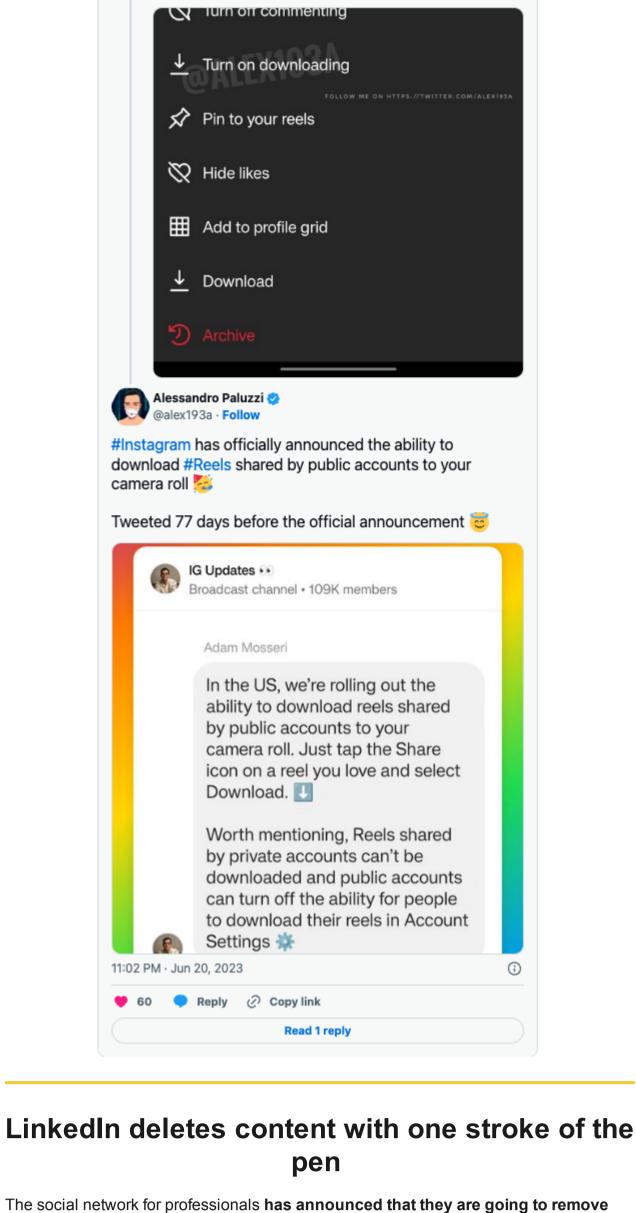

At the moment, this option is only available in the United States and it seems that from the mobile version... we will have to wait and see for it to appear in other locations.

What do you think of this new feature, were you expecting it?

allowing other users to download your video ...
